## Manpower:

Vlad Peskov left

Mirta is behind on her Interim, have to leave room for her to work on analysis

Looking for a postdoc or higher

## R&D activity:

very low before QM

Running heavy purchases in the background, getting consumables (2 bottles of Ne gas) equipment (12 new pA's, new 10mCi iron source).

## Funds:

Agreed with Ed, but did not submit paperwork yet

BSF with Tom, very positive about outcome to be known in ~June

## The most critical item:

postdoc, or even higher.
